

IN THE CLAIMS:

Please amend the claims as follows:

--5. (Amended) An arrangement as claimed in claim 2, wherein the switch means are semiconductor switches.

6. (Amended) An arrangement as claimed in claim 2, wherein the intermediate storages are capacitors or accumulators.

11. (Amended) A method as claimed in claim 7, wherein the method also comprises a step for converting the voltage stored in the intermediate storage with a voltage converter to provide output voltage.

12. (Amended) A method as claimed in claim 7, wherein the intermediate storages are capacitors or accumulators.--
